

Chrysa Kirmitsaki

User Experience (UX) Developer

chrysakir@gmail.com, github.com/chrysaki, portfolio: <http://chrysaki.github.io/>, linkedin.com/in/chrysakirmitsaki

Brief Summary

I love to design user-centered web-stories and experiment with the latest front-end techniques and CSS tricks in order to give them appealing form and substance. In other words I'm a UX Developer.

EXPERIENCE

User Experience (UX) Engineer

Migreat

February 2015 – Present | London, United Kingdom

- Get involved in the UX process defining the product.
- Sketch together with the product manager and get prototyping in code as quickly as possible using the latest in front-end technologies.
- Assist the tech team with the final development and maintenance of the features.

HTML5, CSS3/SASS, Foundation framework, JS/JQuery, Interaction Design, UI/UX Design, Wireframing

Front-end Developer

Migreat

January 2014 – February 2015 (1 year and 2 months) | London, United Kingdom

- Working side by side with the graphic designer in order to turn static Photoshop designs into fully functional webpages.
- Styling the prototypes that back-end developers produce to match the mock designs.

HTML5, CCS3/SASS, a bit of JavaScript, Foundation responsive framework

Web Master & Junior Designer

“Agia Anna” Bookstore & Publication Company

June 2011 – January 2014 | Thessaloniki, Greece

My duties were to build and manage the company's CMS site (<http://agiaanna.eu/>) and work with the senior designers in several projects paginating, designing and printing a book with a big variety of content and style.

Wordpress, paginating/designing and printing written content

chrysakir@gmail.com, github.com/chrysaki, portfolio: <http://chrysaki.github.io/>, linkedin.com/in/chrysakirmitsaki

Instructional Designer and Programmer of Educational Environment

Internship in 5th Elementary School Sykeon

February 2011 – June 2011 (4 months) | Thessaloniki, Greece

Part of my Internship in Didactic of Informatics was to design and create the educational program in Adobe Flash / ActionScript and a sample interactive class for 5th grade.

SKILLS

Design: UX Design, Interactive Design, User Analysis, Research, Wireframing, Prototyping, Usability, Printed media.

Front-end Development: HTML(5), CSS(3), Sass, JavaScript, JQuery, Graceful degradation, Responsive design, Website optimization + cross browser capabilities.

Tools: Adobe Creative Suite, Balsamiq, Brackets, CMS(Wordpress, Joomla!), Gimp, Github, Sublime2.

Non-technical: Proficient in English, motivated, working good under pressure and a team player. Love symphonic metal, food, art & books.
